PROPOSAL TO REDUCE THE NUMBER OF CLUBS TO BE RELEGATED AT THE END OF THE PREMIER LEAGUE SEASON 2019/2020

The undersigned Stake Holders submit this Technical Proposal in respect of the decision made by Congress on the 25th day of October 2019, for five (5) Clubs who end at the bottom of the League log to be relegated.

Our gross single request for the number of Clubs subject to relegation at the end of the League season 2019/2020 should be reduced to Three (3) based on the following projected reasons:

1. We have three (3) Zones for the Division One, with a champion from each zone being promoted to the Premier League. Relegating Five (5) from the Premier League will create problems for a particular Zone if all the 5 Clubs are relegated to that particular Zone.

2. This will also increase the Clubs in the Division Zones. In an event where all the five Clubs to be relegated belong to a particular Zone, there will be relegation of the same numbers(s) to the respective Regional Division Two (2) Leagues.

3. If Five (5) Clubs are to be relegated, aggressiveness to win at all cost will set in rather than making the League more competitive and fun.

4. It reduces tolerance level for genuine human error, as all that will matter to Clubs is getting the Three (3) points at the end of the match.

5. It will create the platform for hooliganism and cheating in matches.

6. The beauty of the game will reduce and it will not attract sponsors.

7. It will put some Clubs who are not influential and powerful at a disadvantage

We also propose a permanent 18 Club League as we believe this structure will help increase the degree of competitiveness and balance.

We entreat the Executive Council to include this proposal in the agenda to be discussed at the next Congress and subject it to voting by members.

PROPOSAL TO RECONSIDER AND TO AMEND REGULATIONS AFFCTING RELEGATIONN OF THE PREMIER LEAGUE SEASON 2019/2020, DIRECTLY AFFECTING RELEGATION ON DIVISION ONE LEAGUE AND OTHER LOWER DIVISIONS

We the undersigned Division One Clubs submit this Proposal in respect of Fairness, Sportsmanship and Sporting Integrity in respect of the decision made by Congress on the 25th day of October 2019, for five (5) Clubs who end at the bottom of the League in the Premiership log to be relegated to Division One.

We hereby request that Relegation in the Premiership to Three (3) and the Status Quo MAINTAINED in other not to Jeopardize the division One League as Structured currently and to avoid Legal Tussles and Conflicts at the end of the Season 2019/2020, we hereby proposed that the Premiership should be reduced to Three (3) based on the following Pertinent reasons:

1. That if five (5) Clubs were to be Relegated from the Premiership, there will not be Spirit Fairness, Sportsmanship will be on the Brink, and low Sporting Integrity will be observed

3. This will also increase the Clubs in the Division Zones. In an event where all the five Clubs to be relegated belong to a particular Zone, there will be relegation of the same numbers(s) to the respective Regional Division Two (2) Leagues.

4. It will put some Clubs who are not influential and powerful at a disadvantage

We also propose a permanent 18 Club League as we believe this structure will help increase the degree of competitiveness and balance.

SECOND PROPOSAL

As much as we respect the Decision of the Executive Council to have the league start on the 27/12/2019, we Humbly Request that you consider the peculiar situation of the 48 Division Clubs and postpone the Start of Division One to the 10th of January 2020 and to allow the Premiership Clubs which will playing 34 matches, 4 more than the Division One to kick Start on the Proposed Date in other not to distort the program for commencement.

We believe if this Proposal is considered by your Honorable Council it will afford us Good and Adequate Preparation for Perfect Start to the Season to **Bring The Love Back**

We entreat the Executive Council to include this proposal in the agenda to be discussed at the next Congress and subject it to voting by members.
